

PARTS DEPARTMENT BULLETIN

DATE: 19-May-15

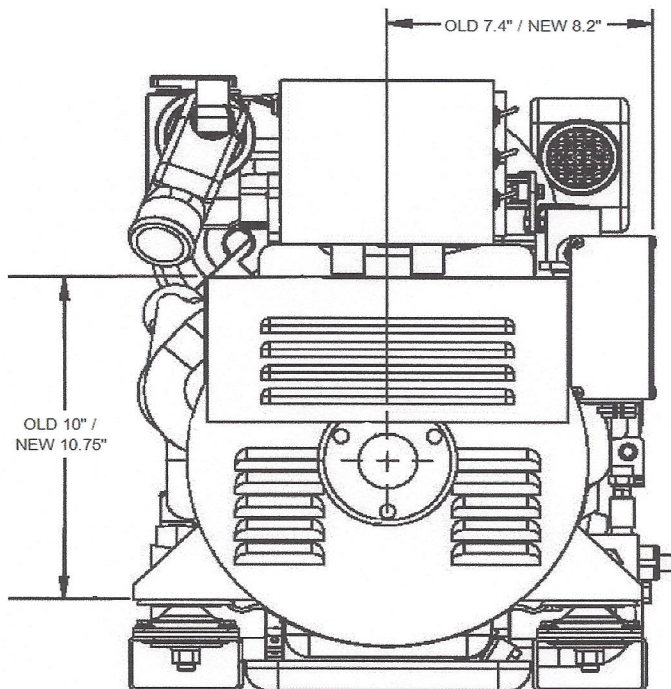

BULLETIN NUMBER: 2015-5, Page 1 of 2

SUBJECT: Generator part number 43092 and earlier part number 37429 are no longer available.

MODELS 3.0 BCG, 3.3 BCD, 3.4 BCG, 3.5 BCGB, 4.0 BCD, 4.0 BCG, 4.0 BCDA, 4.4 BCD, 4.5 BCG,
AFFECTED: 4.5 BCGA, 4.5 BCGB, 5.0 BCD

DETAIL: New and reconditioned 4.5 BC Generator end part numbers 043092, R043092, 37429, and R037429, are no longer available. Most spare part or repair components (other than main stators and rotors) for the 4.5 BC generator such as battery charge controllers, terminal blocks, fuse holder, and capacitors, are still available at this time.

Complete generator assemblies for these models can be replaced using complete 6.5 BC generator assembly part numbers 043095 or R043095. Be aware there are some physical difference however these generators have been determined a suitable replacement. See size differences illustrated below.

Dimensions Provided Are Approximate

Important Dimensions to Consider.

Over all height of new generator end is slightly taller. Check for additional 3/4" panel box height clearance.

Diameter of stator housing is slightly larger. Check for additional 7/8" circuit breaker box clearance.

Also Note that instances where a Sound Guard (SG) is in use will possibly require an alternative SG end panel / plenum or relocation of the unit on the SG base.

DIMENSIONS APPROXIMATED
